Side Laf 21

I dette materiale skal du prøve at arbejde med tekster og billeder.
Tekster er bogstaver, der er sammensat til ord. Ord er igen sat sammen, så de danner sætninger. Sætninger kan udtrykke en mening, som man vil give videre til andre.
Når man skriver på computer, kan man slå stavekontrollen til, så ser man de fleste af de tastefejl, man uvægerligt vil komme til at gøre.

Når du skriver i hånden, er det naturligvis vigtigt, at det kan læses af andre. Når man skriver via en computer, så bliver alle tegn skrevet ens af alle uanset, hvor dygtig man er til at skrive.

Ved brug af computer handler det derfor mest om, hvordan man får teksten til at stå på papiret og på skærmen.

Kan du f. eks. se, hvad der står her under?

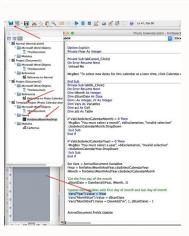

Nej vel! Det er ikke nemt at læse. Hvis du udskriver siden og holder papiret skråt foran dig, så kan det godt læses. Der står: Hokus Pokus.

I det følgende skal du øve dig i og lære at lave tekster, som er lidt anderledes end normale tekster.

Den første øvelse går ud på, at du skal lave dit eget visitkort. Et visitkort er et lille kort, som man kan have i lommen. Det bør som minimum indeholder dit navn, adresse og telefonnummer.

Når man træffer nye mennesker, som man gerne vil i kontakt med igen, så er det nyttigt at kunne give dem sine egne data, og så er det da også smart, at man har lavet

Indeed, ClickToFlash does an excellent job of blocking unwanted Flash video while still letting you watch Flash when you want to, which can result in better browser performance, fewer crashes, cooler running temperatures (and hence lass fan noise), and in the case of laptops, longer battery usage (in both the short term and over the life of a battery). ClickToFlash is easy to install and use. Once installed, ClickToFlash blocks all Flash video, instead showing a gray box with the word 'Flash' and small settings icon in the upper left corner wherever Flash would otherwise appear. You can then load the Flash video by just clickToFlash to load all Flash on the page or to add the video's source URL to a 'whitelist' (so, for example, if you don't want ClickToFlash to ever block video from a site like YouTube or ESPN, you can just add that site to your whitelist and those videos will always load normally). This functionality alone makes ClickToFlash worth installing, but this app adds a couple extras, too: you can set ClickToFlash to always load higher-quality H.264 videos from YouTube on the iPhone), or you can set ClickToFlash worth installing, but this app adds a couple extras, too: you can set ClickToFlash to always load higher-quality H.264 videos from YouTube on the iPhone), or you can set ClickToFlash to always load higher-quality H.264 videos from YouTube on the iPhone on the iPhone on the iPhone of the iPhone when available. If you're ever annoyed by Flash videos while surfing the Web (especially processor-intensive ads), ClickToFlash can also add to your effective battery life, making it definitely worth checking out. Ever wanted to get rid of the scourge of the web that is Adobe Flash, but still retain the ability to view Flash whenever you want? With ClickToFlash, you can! Using ClickToFlash, all of those icky Flash bits that have infected most webpages on the internets are replaced with a nice, smooth gradient and the word 'Flash' set in a nice, pleasing font. When you want to view the Flash, just click on it! The advantages of ClickToFlash are numerous. Since Flash isn't loaded until you specifically ask for it, your CPU usage will stay at normal levels when browsing the web. This has tons of benefits: web browsing stays speedy, your Mac laptop won't get as hot, and your Mac's fan won't come on as often. In fact, we guarantee. that ClickToFlash will quintuple your battery life and that it will protect those precious parts of your body on which you rest your laptop! (.note: not actually guaranteed) Best of all, ClickToFlash even supports viewing all those ADORABLE meowing cat videos, annoying dog videos, and hilarious rickrolls from YouTube without using Flash at all!That's because YouTube also offers H.264 videos, which are used when viewing YouTube on the iPhone. With ClickToFlash, you get access to those same, higher quality videos. Come join us! The web is so much better without Flash block evil Adobe Flash Flash only when you want it.
