The fact that I could remember what the umbrella did after 20 plus years of not playing and could remember the different levels. Comic Action Game with shooting bubbles to defeat enemies Classic Arcade Game with the main character 'Bubblun' to capture enemies with bubble and defeat it.[How to Control]Able to move left and right on the screen, and press the fire and jump buttons to play.[Game Feature]- Conveniently fire the bubbles with the automatic shot function.- Able to get an extra life through gathering alphabet bubbles E, X, T, E, N, D.- Able to get additional scores through hamburger, hot-dog, sushi, banana, and ice cream after defeating all enemies on the stage.- The skull monsters are going to appear and chase if the player cannot clear the stage in a certain amount of time.- Able to change the original or full screen aspect ratio in the setting.- Super game is available after normal game is cleared.- Supported achievement and leaderboard.[Power-up Item]- Yellow candy: Increasing speed of blowing bubbles. But otherwise, it's perfect for nostalgic people and for anyone who wants to enjoy a good platform game. And the bubble button should be bigger too. The graphics look like they were rushed. Please ignore them and their issues. First is the graphical quality. It just brought back so many fun memories. Oh the joy. Learn More Developer Website App Support Privacy Policy The game also features a very simple game system, reduced to the minimum as in the original: move with your left hand and jump and shoot with your right. Last would have to be the fact that the promotional things for this game tease multiplayer, something that isn't actually shown in the game. Collect the bubbles with letters to form the word EXTEND and get extra lives. It's one of the great classics of the 80s and 90s, a game that triumphed on every platform it was released on and appeared in all arcades around the planet. For more information, see the developer's privacy policy. Although it is hard to add multiplayer to a mobile game, there are ways it can be added gracefully. Also, most reviews here are from kids that cant be pleased. They're to hard to use, and seems like they're in the wrong places. Find special gifts like the cane, the umbrella, the magic necklaces or the watch. These are its main functions and features: Shoot the bubbles to trap your enemies. Other than that, the game plays mostly the same from the original. I just downloaded the app and played for the first time in over 20 years. Thank you for your valuable feedback.We will deliver the contents so that they can be supplemented, and we will try to provide a more pleasant game environment. I appreciate the classic game was brought to IOS, but the game has many problems. Next would have to be the controls. I feel like, the bad ending when you only play single player should have been added, because the whole original game was about teamwork. This remake reproduces the original game in an authentic way, with the exception that we won't be able to play with two players like in the original Taito. Unlock powerups and improve your shot and speed. The brain is an amazing thing. A perfect remake The aim of the game is to handle our dragon Bubblun and throw bubbles where we can catch our enemies to kill them by blowing them up. Hurry up and prevent the ghost from appearing. Other than that, thank you for bringing this back into my life... After 100 levels we reach the final monster, jumping over the structures that made the bubbles and over the bubbles themselves. Thank you. It'd be better to use a joystick like control on the left so that you can move and jump instead of pressing seperate buttons to do it. Depends on color of parasol, the jumped stages are different.- Magical staff: All remaining bubbles on the screen will turn into food, and also a large food will fall down.- Sky blue Ring: Able to get extra points each time the Bubblun moves.- Chack'n Heart: Transforms to invincible Bubblun that defeat the enemies.- Magical necklaces: Shining ball bounces around the stage, and defeat the enemies.- Clock: Freezing the monsters in certain amount of time.© TAITO CORPORATION 1986, 2020 ALL RIGHTS RESERVED.Facebook : : Jun 30, 2021 Version 1.0.28 Bug fixes and performance improvements I used to play this with my brother religiously on NES! To hear everything, to see everything! It brings back such AMAZING memories! We got to super bible bobble and so of course I had to download this game! The only issue is how do I drop back down from a ledge? I guess, who'll I'm asking questions, how can I legit buy this game and not have to watch ads or get diamonds or anything? Second, I know this is a mobile game, but that doesn't mean that we need gems to move on in the game. It looks like they just typed in some stuff and left it like that. They could have something like credits, since it is an arcade game. Of progressive difficulty and as addictive as it is fun, at times it could become unrealistically tricky. I had completely forgot about this game until today.
