The rules of pétanque are quick and easy to learn and it was great to see them get so into it, cheering, debating over the score and having a good time! Pétanque - Introduction and Vocabulary Pétanque is a century-old game originating from Provence, in the South of France. Page 4 Them - Lots. - Unusual situation: If the jack is hit and bounces back to within 3m of the circle it is dead (9). SO IT'S SIMPLE - TAKE THIS ONBOARD AND YOU'LL BE THE PERFECT PLAYER! Page 2 The weather was dull but the expectations were bright. In timed games you have only 1 minute to play your boule after all previous boules and the jack have stopped moving and any measuring has been done. - If boules beyond those initially holding the point are equidistant from the jack neither gain a point. You can't smooth the piste you can only return the dip to what it would have been before a boule landed there. The same rules regarding the validity of the throw as in paragraph 3 apply to all ends. A player from the opposing team throws their first boule, as close to the cochonnet as possible (since that is how you win the game!) Remember the rule for throwing your boules when playing pétanque: Both feet need to be within the circle and on the ground. MORE Page 3 Use this Form For Your Notice or Query etc Published: 17/05/2020 - 08:47 Teaming up with new partners brings both playing and social benefits. It may be polite to offer your opponents to do it so they can be sure they aren't disadvantaged. However, throwing this way will allow you to get more control when giving your boule a slight spin. Team A therefore scores 2 points for this round (Team B scores nothing.) The score at the end of these two rounds is: A = 2 points B = 1 point For ease of access the different MATCH FORMATS are explained on a separate page, click here Qualification The 2021 International Rules of Petanque and also the PFA Local Rules for Timed Games are can be seen in the PFA website under the 'Documents' menu, here. Only after this are the opposition allowed to measure whether the jack was valid. You can use our website to advertise your interest in teaming up with others. I eventually had a set delivered to Australia - the "boules" are so heavy it would have been a shame to take them back in our luggage as we would have lost some precious weight allowance, much needed for my new French books and the many packets of all my favourite French biscuits! On our annual picnic in the park last February, I introduced the game of pétanque to my students. Open toed shoes are not allowed. Womens Pr... Round 2: This time, team A wins the round, because the closest boule to the cochonnet is theirs. Shoes must cover toes and heels for safety reasons (39). Rules of pétanque : how to count the points (example) Round 1: Team B is winning this round, because the closest boule to the cochonnet is theirs. Some sets for children to play on the beach are made of colourful plastic though and filled with sand. All competitions are registered via the My Petanque website www.mypetanque.com. The other team must stand well clear and not intervene while measuring is taking place. These are for TIMED games only. Where Not To Stand (17) The team waiting its turn to play should stand off the piste at one or other end and well behind the player whose turn it is. Pétanque is played in as many rounds needed for the first team to score a total of 13 points. Sometimes, the boules can look at equal distance from the cochonnet and it can be really tricky to tell which team gets the point. The circle may never be moved forwards. They don't have to do this, it's their choice. A team can fill one dip made by a previous boule before throwing the jack or a boule. Registration To play in a competition you need to register your team. It's an easy site to use. The starting team draws a small circle on the floor. If no team has boules in hand any picked up before the score is agreed are considered dead. The jack must be a minimum 0.5m in from the far end dead boule line but there is no specified distance in relation to the side lines. 2. This way, we can see who is "having the point", i.e. which team is leading thanks to having their boule closest to the cochonnet. Pétanque (French boules) is the 10th most popular sport in France and is also played by millions of French people for pleasure, especially during summer holidays where tournaments organised in the camping / holiday resorts are very common (I remember enrolling in some "tournois de pétanque" myself as a teenager). Picking Up The Circle Before All Boules Played (6) Tough! The circle is replaced and only the opponents can play their remaining boules. Finish that end and play one more end (+ a tie breaker if a draw) Who Measures And Awards The Points (26) Contrary to popular belief, measuring is not done by the losing team but by the team who LAST PLAYED that end. Picking Up a Boule Before The End Is Scored (27) Tough! If your team still has boules in hand they are all frozen. Uncorrupt... The name comes from "pieds tanqués", which means "feet anchored / feet firmly grounded". But usually, tracing a circle with your foot or a stick in the dusty ground works just fine! Every player will then have to throw their boules from the circle during that round (in other words, this will be the starting point for all players). And all their team members were there own. Standing In The Wrong Place (17) When your opponents are playing you must stand off the piste, at one or other end, and not move or distract. MORE CPC EXCELLS AT APOLLO BAY! GUY 3rd in PRINCIPAL CPC CLEANS UP CONSOLANTE Well done Guy, Wrights, Cuthberts, Buffets, Sue R. C... The number of boules used for the game depends on the number of players in each team : Le terrain, le bouledrome = the area/field/ground on which pétanque is played. Your feet mustn't touch the circle nor may either foot lift completely off the ground before your boule lands. The Initial Throw Of The Jack (7) A valid throw is between 6 and 10m from the inside edge of the circle. This team may then check the measuring, getting an umpire if necessary. These notes have been checked by an umpire. Check the cut off date carefully. We therefore use a meter, a piece of string or a compass to measure and find out. Last July, my husband and I spent a few weeks in France and playing pétanque again revived fond childhood memories. See below about misbehavior! If you arrive after the start of the game, defined as the cosh has been thrown, validly or not, you cannot play until the next end starts (33). For thick, painted lines the outside edge is taken as the line. Only the opponents play their boules. Most competitions have a moderate registration fee of around \$20 p.p. most of which goes towards providing cash and kind prizes for the different categories of players. The team who won the previous end plays again from a new end. The team who does not have the point throws the next boule and continues to do so until they gain the point or run out of boules. A moment later the bell goes. Pétanque is best

played on small gravel, but can also be played on sand or grass (my least favourite, because then the balls can't really roll). Ttirer = to knock away an opponent's boule - a good way to get rid of the boules of the opposing team that are close to the cochonnet! By the way, if the cochonnet is moved/knocked away by a ball, the game also goes on, but it's not very ethical to do so deliberately!) Un tireur = a pétanque player who is skilled at knocking away the opponent's boules (that is, not me!) 6. Un bouliste, un joueur de pétanque = a pétanque player In pétanque, two teams play against each other. So that end hasn't finished. If you accidentally play with someone else's boule the throw is valid but the boule should be replaced with your boule at the first opportunity, possibly after measuring has been done. However the first player of a new end may move the circle back in line with the previous end's play to provide up to 10.5m to the dead boule line. The jack must also be 1.5m from any other games' circle or jack and 0.5m from any obstacle. The Jack Goes Out Of Play So It's Dead (14) - After the initial throw, if a jack is pushed over an end or side line it is dead only if it is wholly outside those lines, that is with no part inside or on those lines. However, it is allowed to fill back an impact hole which has been made by one boule thrown before. MORE Nagambie Cup Well done CPC members Oh! And especially Sue Jenkins who won the pick a s.... (Players can have their personal preference, but the choice also depends on the size of their hands or whether they mainly use them for pointing or shooting (I'll explain that later). So you finish this new end and play one more end (+ a tie breaker if a draw) - The last boule has been thrown but hits another boule which is still moving when the bell goes. One point is scored for every one of the winner's boules that are closer to the jack than their opponent's nearest boule. The first player throws le cochonnet, which must land anywhere between 6 meters and 10 meters from the starting circle (otherwise it's too easy / too hard and you need to throw the cochonnet again.) 3. Two Boules Are Equidistant From The Jack (29) - If both teams have boules in hand the last team plays again because they didn't actually win that point. (who scores nothing for this round). You can download a copy of these simplified rules to print by clicking HERE At The Start Of The Game At the first end the circle can be placed ANYWHERE on the piste so long as (i) a valid throw can be made i.e. a minimum 6m + 0.5m to the dead boule line (7) and (ii) the circle must also be 1.5m from any other circle or jack in use or 1.0m from any obstacle e.g. for CPC shelter or light poles. At the end of an end, the team with the boule closest to the cochonnet scores one point for each of its boules that is closer than the opposing team's closest boule. That end is over therefore the next end has started. SO IT'S SIMPLE - TAKE THIS ONBOARD AND YOU'LL BE THE PERFECT PLAYER! The next end starts the moment the previous end finished, there is no time gap. (In the official rules of petanque, using your feet to measure is forbidden, but many people do it anyway when playing informally.) 5. If necessary the circle must be moved to be 1.5m from any nearby circle or jack in use or 1m from any obstacle. 2 examples will help - The last boule has been thrown and all boules have stopped moving. Indeed, in an older version of the game, the ball was thrown after a 3-step run (a bit like in a bowling game). All the details you need to know to register should be on the flyer the host club publishes. Challenging The Validity Of The Throw (8) If the jack might have been thrown invalidly, see above, that team can still choose to play their first boule without interruption from the opposition. It is forbidden to touch or remove any obstacle on the terrain (a pebble, a leaf, a twig, etc). The boules have different patterns on them so we can know whose player they belong to (it's also possible to have your initials carved on the boule). The numbers in brackets refer to the PFA International Rules document.
