Traditional Job Interview Questions

It is best to prepare answers to these questions, but don't memorize your answers so that you come off sounding like a robot. In other words, be prepared for these questions and have an outline or script ready, but don't worry about remembering your answers word-for-word. Here is a list of sample interview questions job-seekers can expect for more traditional interviews:

- How would you describe yourself?
- Why did you leave your last job?
- What are your long range and short range goals and objectives?
- What specific goals other than those related to your occupation?
- What do you see yourself doing five years from now? Ten years from now?
- What do you really want to do in life?
- What are your long range career objectives?
- How do you plan to achieve your career goals?
- What are the most important rewards you expect in your career?
- Can you explain this gap in your employment history?
- How well do you work with people? Do you prefer working alone or in teams?
- How would you evaluate your ability to deal with conflict?
- Have you ever had difficulty with a supervisor? How did you resolve the conflict?
- What do you consider to be your greatest strengths and weaknesses?
- How would a good friend describe you?
- Describe the best job you've ever had.
- Describe the best supervisor you've ever had.
- What would your last boss say about your work performance?
- What motivates you to go the extra mile on a project or job?
- Why should I hire you?
- What makes you qualified for this position?
- How do you determine or evaluate success?
- In what ways do you think you can make a contribution to our company?
- Do you have any hobbies? What do you do in your spare time?
- Have you ever been fired or forced to resign?
- What qualities should a successful manager possess?
- Do you consider yourself a leader?
- What are the attributes of a good leader?
- Describe the workload in your current (or most recent) job.
- Which is more important: creativity or efficiency? Why?
- What's the most recent book you've read?
- Describe the relationship that should exist between the supervisor and those reporting to him or her?
- What two or three accomplishments have given you the most satisfaction? Why?

Here Are Some Examples of QUESTIONS INTERVIEWERS WILL ASK YOU:

- ➡ Why are you currently looking for a new opportunity?
- ➡ What would your old boss say about you?
- ➡ Describe a time when you've had to use your presentation skills to influence someone's opinion.
- ➡ Tell me about a time when you've had to go above and beyond the call of duty in order to get a job done.
- ➡ Tell me about a time when you've used persuasion to convince someone to see things your way
- ➡ How do you deal with conflict? Give me an example.
- ➡ Tell me about a time when you've made a customer really happy. What was his or her name?
- ➡ What's your leadership style?
- ➡ What's your greatest strength?
- ➡ How do you motivate others?
- ➡ Tell me about a time when you've failed?
- ➡ How do you stay organized?

Sample Interview Questions For Kids

- Do you ever talk to our animals or plants? What have you been talking to them about recently?
- What are two things that made you laugh recently?
- [For someone older than the interviewer] What are some of your memories from when you were my age?
- [For the child's adult] Why did you name me what you named me?
- What is the bravest thing you've ever done?
- What is the most adventurous thing you have ever done in nature?
- Describe your style and how it communicates who you are.
- Have you ever stayed up past your bedtime reading under your covers? [If yes] What were you reading? [If yes] Why did you like that book so much?
- If you could be a superhero, what kinds of powers would you have?
- Have you ever stayed up all night long? [If yes] What were you doing?

What are Common Interview Questions & Answers?

The following questions are commonly asked by employers during the job interview process. You could be asked any of these questions during a telephone interview or an in-person interview. In order to be well prepared, be sure to become familiar with each question, why employers ask that particular question, and how to answer the question.

Q

A

Tell me about yourself.

The employer is interested in knowing about your past work experience, related education or training, and other strengths related to the position. The employer is not asking you to talk about your personal life.

Sample Answer

"I have over 15 years' experience as an Administrative Assistant. Some of my responsibilities have included creating, tracking and managing reports, organizing schedules and working with board members. My strengths are time management, communication, and computer skills. I am an individual who thrives on a challenging environment giving excellent customer service."

Q

A

Why do you want to work here?

The employer wants to know that you have thought about where you want to work. Show that you have researched the company and are convinced the company is a good fit for you.

Sample Answer

"Based on the research I've completed, this company is an industry leader with strong abilities for the future. I also understand that the company has about 40 employees and I enjoy working in a place where I can get to know people on a first name basis. For these reasons, I would be excited about an opportunity to work here."

Q

A

Why did you leave your last job?

The employer wants to know if you quit, were fired or were laid off from your last job. It is important to stay positive, regardless of how you left. Do not say anything negative about your employer and be sure to talk about what you learned while working there.

Sample Answer

If you quit: "After five years with XYZ Company, I felt I had gained all the skills and experience possible from that role. I am now looking for a growth opportunity where I can take on more responsibility and add value to a company."

If you were laid off: "Unfortunately after several months of lay off in my last company, my job was eliminated and I was laid off. I really enjoyed my time there however and I was able to use my strong skills in customer service, sales and negotiation."

If you were fired: "Being let go was difficult, but it has given me an opportunity to explore jobs that better suit my skills and interests. I am confident that this position with your organization will benefit both of us."

Sample Interview Questions

Telephone Interview Questions

1. In your career, what have you done that you are the most proud of?
2. What are the specific skill sets that you would bring to this job?
3. What do you think is the biggest challenge facing _____ today?
4. What must an organization provide in order for you to do your best?
5. If you could change one thing in your last job (or present job), what would it be?
6. If I were to speak to your co-workers, what would they say about you?
7. Why should I consider you for this position?

Face-to-face interview questions

1. Describe how you first became interested in _____ (whatever field of work).
2. Give me an example of some goals you've had and how you achieved them.
3. Tell me about one of the toughest groups with which you've had to work. What made the group tough? What did you do?
4. What are the biggest decisions you've made in the past year on the job? Tell me how you made them.
5. Give me an example of a time you disagreed with a directive given by your supervisor. What happened?
6. What gives you greatest joy in your work and why?
7. Describe a risk you took in a job. What was the result?
8. Tell me about a time in which your work was criticized. What happened? How did you respond?
9. What has been your greatest frustration or disappointment in your present job? Why?
10. What approaches do you use in talking with people who have very different personalities or work styles than your own?
11. What makes you angry in the workplace?
12. How would you set priorities for this position? How would you spend your first six months?
13. What do you expect from ACU as your employer?

What are the interview questions for javascript. Javascript interview questions and answers with examples. Javascript interview questions list. Javascript interview questions and answers for experienced with examples. Javascript interview questions examples.

For example function msg() { document.writeln("Named Function"); } msg(); The types of function are: Named - These type of functions contains name at the time of definition. Microsoft changed the name and called it JScript to avoid the trademark issue. In other words, you can say JScript is the same as JavaScript, but Microsoft provides it. By object literal By creating an instance of Object By Object Constructor Let's see a simple code to create an object using object literal. If the argument is an expression, the eval() function evaluates the expression. So you should really know the ins and outs of the role and why you (might) want to work for that particular company.What Is Your Greatest Weakness?There's an art to answering this question; it involves spinning your weakness as a strength. 14) How to write a hello world example of JavaScript? When we send data to a web server, the data has to be a string. The JSON() method is most commonly used to exchange data to/from a web server. It resides inside the HTML documents and is used to make web pages interactive (not achievable with simple HTML). Objects inherit prototype properties in the static state. Null value: A value that is explicitly specified by the keyword "null" is known as a null value. By the help of try/catch block, we can handle exceptions in JavaScript. The server-side JavaScript are deployed only after compilation. The class's behavior is defined by the class and is shared by all instances. For example: "use strict"; x=10; console.log(x); The JavaScript math object provides several constants and methods to perform a mathematical operation. A simple example of JavaScript hello world is given below. 36) What is the real name of JavaScript? So, to help you prepare, here are the top 10 interview questions you could be asked — along with some excellent answers.Tell Me About Yourself.You'll probably be asked this at the outset. And finish with your own USP.Where Do You See Yourself Five Years From Now?Maybe this job is just a stopgap. There are 3 ways to create an object in JavaScript. It stores each element as a key-value pair where keys are weakly referenced. Now, we can start the flow of execution manually. setTimeout()performs the action after specified time like calling function, evaluating expressions. To perform debugging, we can use any of the following approaches: Using console.log() method Using debugger keyword 54) What is the use of debugger keyword in JavaScript? JavaScript supports try, catch, finally and throw keywords for exception handling. function function_name(){ //function body } More details. There is no difference between JavaScript and Java. Example 1: hoistedVariable = 12; console.log(hoistedVariable); // outputs 12 even when the variable is declared after it is initialized var hoistedVariable; Example2: hoistedFunction(); // Outputs " Welcome to JavaTpoint " even when the function is declared after calling function hoistedFunction(){ console.log(" Welcome to JavaTpoint "); } Example3: // Hoisting in a local scope function doSomething(){ x = 11; console.log(x); var x; } doSomething(); // Outputs 11 since the local variable "x" is hoisted inside the local scope 1) Which of the following statement is true? You need to place it inside the body tag of HTML. Java supports multithreading. Example: typeof 10; // Returns: "number" typeof 10.0; // Returns: "number" typeof 2.5e-4; // Returns: "number" typeof Infinity; // Returns: "number" typeof NaN; // Returns: "number" A document object represents the HTML document. For example: var address= { company:"Javatpoint", city:"Noida", state:"UP", fullAddress:function() { return this.company+" "+this.city+" "+this.state; } }; var fetch=address.fullAddress(); document.writeln(fetch); JavaScript didn't show any error message in a browser. More Details: Document Object Model 20) What is the use of window object? It doesn't contain the arbitrary values. 32) What is this keyword in JavaScript? Java is an object-oriented programming (OOPS) language or structured programming languages such as C, C++, or .Net. You could also ask about the prospects for career advancement. For example: var display=function() { alert("Anonymous Function is invoked!"); } display(); Yes, you can assign an anonymous function to a variable.) display(); BOM stands for Browser Object Model. Following is a list of some key differences between Java and JavaScript Java JavaScript Java is a complete and strongly typed programming language used for backend coding. In JavaScript, we need closures when a variable which is defined outside the scope in reference is accessed from some inner scope. For example: function display() { var set = new Set(); set.add("jQuery"); set.add("AngularJS"); set.add("Bootstrap"); for (let elements of set) { document.writeln(elements+" "); } } display(); The JavaScript WeakSet object is the type of collection that allows us to store weakly held objects. 11) Define closure. So you might want to ask about the management style, or what your predecessor went on to do. [objectName.jeval(numeric)] [EvalName.jeval(string)] [EvalName.jeval(numeric)] [objectName.jeval(string)] Answer: D is the correct option. Hoisting is the default behavior of JavaScript where all the variable and function declarations are moved on top. Brendan Eich developed this new scripting language in just ten days in the year September 1995. const obj1 = { a: 10, b: 15, c: 18 }; const obj2 = Object.assign({c: 11, d: 12}, obj1); console.log(obj2.c, obj2.d); 10, 12 11, 12 Undefined Error Answer: B: 11, 12 is the correct answer. An object contains properties, defined as a key-value pair. For Example: function display() { document.writeln("Named Function"); } display(); Anonymous - These type of functions doesn't contain any name. It is a browser object. JavaScript is assigned within a web page and integrates with its HTML content. However, these mistakes can affect the output. var display=function() { document.writeln("Anonymous Function"); } display(); 8) Define anonymous function It is a function that has no name. JavaScript is a scripting language. function validateform(){ var name=document.myform.name.value; var password=document.myform.password.value; if (name==null || name=="") { alert("Name can't be blank"); return false; } else if(password.length
