The left and right side are both in the middle at the same time and I have to alternate between closing both my eyes. Fix this I love this app already because it has all genres of VR including witch i live alot and i like the fact that you cqn actually search for a VR genre or video i love this alot and im glad i found this app because all the other apps i foundhad really bad reveiws and some never had any veiws or reviews but when i found ones with reveiws somewould say the app makes noises and even when they delete the app they still hear noises andsome apps even broke peoples phones by giving theyre phones a virus but this app has great reviews and i tried it i had the best experience can you make an app dedicated to horror 360 videos i would absolutely love it with all my heart and maybe i could have my friends who have VR tryit out! I finally found a great 360 VR app. I thought this one was going to be the same like the other apps I've downloaded but no this one is great. And before I download the app i look at the reviews and i compare how many bad reviews and how many good reviews. After i saw the reviews i tried it for myself. I couldn't believe how amazing this app was. I LOVE IT! The developer, Andrey Balakin, indicated that the app's privacy practices may include handling of data as described below.
