Redmi Note 10 | Sunny-Mojito [] 5 356 members, 360 online If you have Telegram, you can view and join Redmi Note 10 | Sunny-Mojito [] right away. Can't find on Google anywhere.XDA for some reason STILL doesn't have a subforum for Note 11... And it's already May. C'mon dude.Is there a Telegram group? I couldn't find one at allOn XDA there is only for Note 11T (India), Note 11 Pro 4G, Note 11 Pro+ 5G and Note 11S 4G.None of these are spes/spesn. I swear XDA is making fun of us After unlock bootloader the device, your phone becomes more vulnerable and less secure to malware attacks, which may lead to the disclosure and loss of your private data. Some features which require high security level (ex: Find device, added-value services, etc.) may no longer be available. Phone data like Photo, Contacts, SMS or application's data will be lost. Use at your own risk 1. Login with Mi account on your Xiaomi phone. Go to Setting - Phone information - Tap 7 times to MIUI version. It will notice developer options enabled 2. Go to Setting - Additional settings - Developer options - Mi Unlock status. Press Add account and wait to success notice. (This step require SIM card and mobile data enable) 3. Download the Mi Unlock app to PC, and sign in with the Mi account which are logged in your Mi phone 4. Shutdown your phone manually, then hold Power and Volume down button to enter Fastboot mode 5. Connect your phone with the PC using USB cable and click Unlock Useful links and files (all phones) » Suggest links (forum threads, tools, etc) via this email form.
