Let us know what you think of the radio-S420BT Pioneer radio leaving a product evaluation. Do you want to share your experiences with this product or ask a question? Please leave a comment at the bottom of the page. Are you satisfied with this pioneer product? Yes no our support team seeks useful information on the product and answers to frequent questions. If you find an impact in our frequently questions, let us know using our contact form. What is Dab+? Verified Dab+ is the successor of the FM signal and stands for digital audio transmission. It is a digital signal that allows more channels inside the same bandwidth and allows a simpler change between the channels. This was useful (341) What is the difference between FM and AM? FM and AM verifies both forms of modulation used to transmit a signal. FM stands for frequency modulation and AM stands for the modulation of amplitude. AM is the most ancient form of modulation. The biggest difference is that the FM signal is very much strong of the AM signal. This was useful (163) there is a CD blocked in my radio car, what should I do? Check some automotive radios have a function to expel the stoned CDs. Turn off the car and press the "On" and "EJECT" button at the same time for 10 seconds. If this does not work, the car and try again. This was useful (123) which car size fits my car? Verified There are two standard auto radio sizes, 1-Din and 2-Din. 1-Din is thethin verse and 2-DIN is double that height. 2-DIN auto radio often have space for a screen to view navigation information or game movies. this was useful (112) initial settings when selecting calendar segments dis- play the selected segment flashes. 4 push MULTI-CONTROL up or down to set the date. pushing MULTI-CONTROL up will increase the day, month or year selected. push MULTI-CONTROL down will decrease the day, month or year se-lected. use these instructions to set the clock. ! for this function, check the argument adjusting the initial settings before starting the work. 1 displays the initial setting menu. 2 use MULTI-CONTROL to select clock. 3 press MULTI-CONTROL left or right to select the segment of the watch display you want to set. pressing MULTI-CONTROL left or right, a segment of the watch display will be set: hours — infinite selections segments of the watch display, the selected segment flashes. 4 push MULTI-CONTROL up or down to put a clock on the right. note you can match the clock to a time signal by pressing MULTI-CONTROL. If 00 to 29, the minutes are rounded. (for example, 10:18 becomes 10:00.) If 30 to 59, the minutes are rounded. (for example, 10:36 becomes 11). the tuning step fm used by the search for tuning can be switched between 100 khz, the preset step, and 50 khz. if the search for tuning is performed in 50 khz steps, the stations can be tuned impeccably. tuning products and accessories sale, outlet. ! for this function, check the argument adjusting the initial settings before starting the work. 1 use MULTI-CONTROL to select step fm. 2 press MULTI-CONTROL to select stageFM. The multi-control pressure repeatedly commutes the FM tuning step between 50 KHz and 100 KHz. The selected FM tuning phase appears in the display. The Tuning AM pass can be switched between 9 kHz, the preset step and 10 KHz. When using the tuner in North, Center or South America, America, The tuning step from 9 kHz (531 kHz to 1 602 kHz permissible) to 10 kHz (530 kHz to 1 640 kHz permissible). For this function, check the topic adjust the initial settings before starting the operation. 1 Use the multi-control to select the AM step. 2 Press the multi-control to select the AM tuning pass. Pressing the multi-control repeatedly will change the AM tuning phase between 9 kHz and 10 kHz. The selected AM tuning phase will appear in the display. If the front panel is not disconnected from the head drive within four seconds of switching on, a warning tone sounds. You can turn off the warning tone. Section 04 29 EN For most old Pioneer single CD players, you can set the clock using the following steps: Press and hold the source button until the unit turns off. Press the source again until the clock appears. *With some models press and hold the function or audio button instead of the source button. Press the left or right arrow to select the time segment you want to adjust. Press the arrows up or down to increase or reduce the numbers in the flashing segment. Once the clock is set correctly, press the source button to exit. If you continue to have problems, please contact our product support at number 1-800-421-1404. How did we answer your question?
