This will take you to the "Checkout" page where you can click the "Place Order" button towards the lower right area. Once logged in, visit the "Free Games" section, where you'll see GTA V among other games. Install it on your system once the process is completed, launch and log in using your Epic Games credentials. Then, download Epic Games Store using the button on the top-right side which will initiate the file download. However, in order to get the game users to require Epic Game account and Epic Games Launcher. GTA V is available for both Windows and MAC users. Thank you for your continued patience! downloading from Epic Games is really a piece of cake. We'll continue to monitor traffic and provide updates if further issues are encountered. We've deployed updates to provide resolution for these issues, and most users should be able to access the Epic Games Store and Launcher at this time. We'll provide an update as soon as we can. We are aware that users may be encountering slow loading times, 500 errors, or launcher crashing at this time and we are actively working to scale. We are currently experiencing high traffic on the Epic Games Store. However, the platform was finally back online on Friday, after an eight-hour-long outage. The store came out with an explanation on Twitter, blaming the increased user footfall for the trouble. Soon after the surprise package was finally revealed, Epic Games experienced heavy traffic from game-buffs all over the world and crashed. In addition, players also receive a cash bonus of \$1,000,000 in GTA Online as part of the Criminal Enterprise Starter Pack. Epic Games had made a plan to give away free games each week through 2020 - GTA V becoming the latest among these "mystery releases". The Premium Edition once downloaded from the website will be accessible to users forever with absolutely no payment is involved in the process. After the Epic Games Store gave away Grand Theft Auto V (GTA V) for free, there's been a massive influx of new players checking out the vast expanses of Los Santos and its eccentric inhabitants. If you're looking to head online, you may be wondering how to open Social Club on the PC so you can engage and interact with your friends in GTA Online. Here's what you need to know on how to open Social Club in GTA V PC. Opening Social Club in GTA V on PC Cutting right to the chase, all you need to do is press the Home button on your keyboard to open Social Club. If you're struggling to find the 'Home' key, look just above the four arrow keys on the right-hand side of your keyboard. Pressing this will cause the Social Club to open, which you can then navigate as you would any other menu. Once you're done in the menu simply press the Esc key to back out to the previous menu and eventually back to being in control of your character in GTA V or your avatar in GTA Online. What Is Social Club? This is essentially Rockstar Games' online account system that enables players to track their stats, create and share content with the community, and assemble crews to play online together much more easily. Additionally, there's occasionally Social Club x Twitch Prime benefits that players can redeem for in-game items and goodies. In other words, if you're going to be playing on GTA Online, setting up and using Social Club is well worth doing. That's everything you need to know on opening Social Club on PC in GTA Online. Website : Patreon : Discord : Twitter : Therefore going ahead I would recommend everyone to use the Rockstar Games Launcher when launching the game, yes it has its drawback (automatically updating when new patch is applied and breaking the mods folder) but manually updating your update.rpt following a Rockstar update takes around 10-20 minutes. There is very limited information about this on the internet or on the NoGTA5Launcher itself. I am telling everyone now to make everyone aware of this because it took me months to isolate this kind of issue. Want to try this for yourself? Boot your game using NoGTA5Launcher, enter cover then press F on any vehicle, your game will crash immediately. What happens is that the game thinks the game is being ran on a pirated key and therefore an anti-piracy feature is enabled developed by Rockstar Games to punish pirates, the game will shutdown immediately without an error following taking cover and then pressing F to enter a vehicle. Not sure if anyone here is aware but your game will crash without an error after taking cover then entering any vehicle This is because the NoGTA5Launcher bypasses and hack patches GTA5.exe to bypass rockstar social club.
